Professional Summary

Aspiring AI and Backend Engineer focused on building scalable full-stack applications using Next.js and Node.js with strong emphasis on AI integration, prompt engineering, and workflow automation. Experienced in applying machine learning techniques and AI-assisted development to improve system efficiency and delivery speed. Also skilled in AI-driven content creation, including end-to-end course development and publishing on Udemy using tools like Claude, Gamma, and HeyGen.

Education

Bachelor of Science in Computer Science & Engineering

2022 – 2026

Daffodil International University

CGPA: 3.55/4.00

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Artificial Intelligence, Machine Learning

Technical Skills

Languages	Python, JavaScript, TypeScript, C, C++
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, PostgreSQL, Firebase, Prisma ORM
ML / AI	Random Forest, XGBoost, LightGBM, SVM, Logistic Regression, Naive Bayes, SMOTE
Tools	Git, GitHub, Docker, VS Code, Google Colab
AI Tools	ChatGPT, Claude, Gemini, Gamma, HeyGen, Cursor AI, Google AI Studio (Prompt Engineering, AI Automation)

Research & Thesis

Social Media Influence on Youth Opinion Change in Bangladesh

GitHub Project

- Designed a machine learning pipeline for opinion change prediction using SMOTE and feature engineering.
- Achieved **84.4%** accuracy with an optimized Random Forest model on 317 survey responses.

Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Flask

Projects

SaFus Restaurant — FullStack Restaurant & Order Management Platform

[Live Demo](#) | [Client GitHub](#) | [Server GitHub](#)

- Designed and developed a full-stack restaurant platform featuring dual payment gateways (Stripe & SSLCommerz), online table reservations, and dynamic order management.
- Implemented secure JWT authentication with Resend OTP verification, centralized API handling, and role-based admin dashboard features.

Tech Stack: MongoDB, Express.js, React.js, Node.js, TypeScript, Tailwind CSS, JWT, Stripe API

ParCelGo — Full-Stack Parcel Delivery & Logistics Platform

[Live Demo](#) | [Client GitHub](#) | [Server GitHub](#)

- Designed and developed an end-to-end courier and parcel delivery platform with automated parcel booking, fare calculation, and real-time tracking using Google Maps API.

- Built role-based access control (User, Rider, Admin) featuring interactive dashboards, secure JWT authentication, payment integration, and TanStack Query for optimized data caching.

Tech Stack: MongoDB, Express.js, React.js, Node.js, TypeScript, Tailwind CSS, Google Maps API, TanStack Query, JWT

Experience

AI Content Development Intern ALGORIZIN (Feb 2026 – June 2026)

- Designed AI-powered learning content using Claude, ChatGPT, Gamma, and HeyGen.
- Leveraged prompt engineering and AI automation to improve course development workflows.

Udemy Courses Developed

Courses created as AI Content Developer at ALGORIZIN:

- | | | |
|----|--|-----------------------------|
| 1. | Salary Negotiation for Immigrants: H-1B, Green Card & U.S.
Use market data, AI tools, and proven negotiation scripts to increase compensation. | View Course |
| 2. | Python for AI Masterclass in 5 Days
Master Python, NumPy, PyTorch & LLM APIs — Build and Deploy a Real AI App. | View Course |
| 3. | AI for Digital Marketing Strategy & Automation
Use AI tools for SEO, content, ads, analytics, and marketing automation. | View Course |
| 4. | 7 Days Claude Bootcamp: The Prompt Engineering Blueprint
Step-by-step prompt engineering system built specifically for Claude. | View Course |
| 5. | AI Agents: From Foundations to Enterprise Systems
How AI agents and autonomous teams are reshaping leadership and strategy. | View Course |

Certifications

AI Content Creator — ALGORIZIN (2026)

Languages

Bengali (Native), English (Professional)
